EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Brown on 11/21/06.

The application has been amended as follows:

In claim 2, line 3, --chamfered-- has been inserted before "portion".

In claim 5, lines 1-2, the phrase "said chamfered sealing surface" has been replaced with the phrase --a sealing surface of the sealing member mounted to the carrier member--.

In claim 5, lines 2-3, the phrase "said other sealing surface" has been replaced with the phrase --a sealing surface of the sealing member on the rotor--.

Claims 6-7 and 9-19 have been canceled.

Drawings

After further review and reconsideration, the objection to the drawings as noted in the final office action mailed 7/31/06 has been withdrawn. There is no proper cross-hatching outlined in MPEP 608.02 (IX) for silicon carbide, and the fact that the back-up ring is disclosed as being polymeric and is depicted in the drawings as metallic does not

Art Unit: 3679

warrant an objection. As the back-up ring cross-hatching corresponds to metal, this indicates that the back-up ring, in addition to being polymeric, can also be metallic.
